

**proFrame.3**

**Cautions:**

**Precautions and maintenance**

- For indoor use only
- To avoid risk of fire or electric shock, do not expose the unit to moisture or condensation.
- To avoid overheating, do not block the ventilation holes on the back of the Digital Photo Frame.
- Keep the Digital Photo Frame out of direct sunlight.
- Always use the eject buttons on the memory storage card slots to remove the storage cards.
- Do not dismantle the Photo Frame. There is a risk of electric shock and there are no user-serviceable parts inside. Dismantling the Digital Photo Frame will void your warranty.

## Cleaning the LCD Screen

- Treat the screen gently. The screen on the Photo Frame is made of glass and can easily be broken or scratched.
- If fingerprints or dust accumulate on the LCD screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth to clean the LCD screen.
- Moisten the cleaning cloth with the cleaning solution and apply the cloth to the screen.

### **WARNING:**

Please power off the unit before inserting or removing a memory card or USB device.

Failure to do so may cause damage to the memory card/USB and the unit.

To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

The Promate proFrame.3 is an ultrathin photo frame which is designed to enjoy lasting memories. The sleek facade has a touch panel for easy navigation of settings and functions. Expand its memory capacity with the most widely used memory cards – SD/MMC, MS and USB flash drive. Be informed of daily time and date with its calendar, time and alarm clock options. From playing images and movies to listening music, the proFrame.3 is a complete solution for your digital viewing needs!

- 16 ) Rotate— Counterclockwise 90°.
- 17/18) Previous/Next— Move back or forward for picture and video files.

## 1.2 Touch Buttons

1. Power On/Off
2. Menu
3. Up Arrow
4. Down Arrow
5. OK / Play / Pause
6. Left Arrow
7. Right Arrow
8. Return

### 1.3 Right Side of Frame

1. SD/MS/MMC

### 1.4 Left Side of Frame

1. DC 5V(Power Input)
2. MINI USB

## 2 Installing & Replacing the Battery

Place the remote control face down, press down on the ridged area of the battery cover and pull towards you to remove the tray. Place one CR2025 lithium button-cell battery on the tray with the positive "+" side facing you. Reinsert the tray.

## 3 Getting Started

- 3.1 Extend the photo frame bracket on the back of the frame to the widest position for greatest stability. Then plug one end of the included AC adapter into a standard 110-240VAC electrical outlet and the other end into the right side the frame.

**Note:** There are different positions for the photo frame stand. Please refer to "Stand Instruction".

- 3.2. Remove the protective film covering the LCD.
- 3.3. Remove the plastic battery insulator from the battery compartment and make sure the remote control has a battery inside. Please refer to "Installing & Replacing Battery" if

you need a new battery.

3.4. Power on the unit by pressing the Power button on the remote control or on the top of the unit.

#### 4. Operating Instruction

After turning on the unit, you will see **MEMORY**, **PHOTO**, **MUSIC**, **VIDEO**, **SLIDE SHOW**, **CLOCK/DATE**, and **SET UP** icons on the screen. If you insert any card or USB device, it will be displayed in the top right corner. Please see the following interface.
